

# CFP Gain Tecan Reads

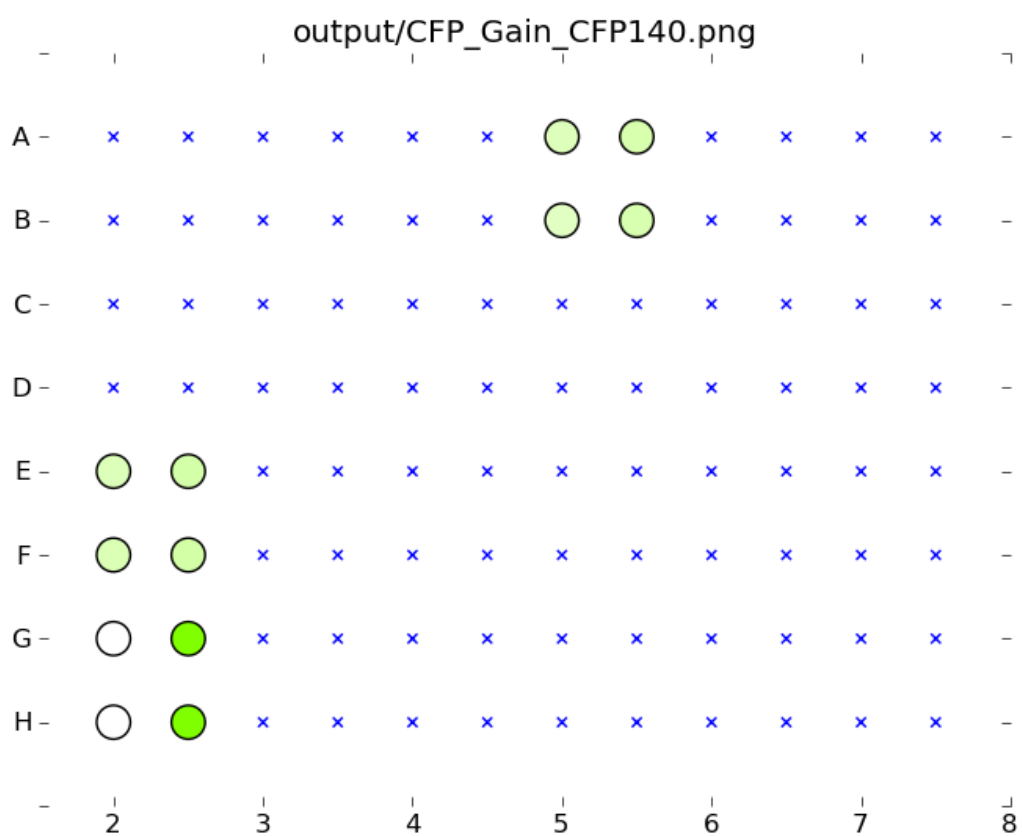

Figure 1 is a 2D plot showing the output of the CH-Gain-CH-100.png. The plot displays a grid of points (x, y) where x ranges from 2 to 8 and y ranges from 0 to 8. The points are colored based on their value: green circles for high values (around 100), blue 'x' marks for intermediate values, and red squares for low values (around 0). The plot shows a clear pattern of high values along the diagonal and low values at the corners.
